

We enjoy having KLOV 90.5 FM in our area. It is nice to have the option of the christian programming. We have young children and other people around us that listen to this station do also and for this station to be replaced by a LPFM station would truly upset all of us. This station is in the public interest because we all need Christ and His truth in our lives. The community as a whole will suffer if this station is replaced by a LPFM station. Thank you for your time and consideration.
